Emergency contraception offers women a last chance to prevent pregnancy after unprotected intercourse. Contraception is especially important for outreach to the 4.5 million women at risk of pregnancy but not using a

Emergency Contraception - ec.princeton.edu

Determining the existence of a public health emergency of international concern under the IHR is the prerogative of the Director-General, who acts on the advice of Emergency Committees.

Chapter 11: Public health emergencies - WHO

Severe sepsis and septic shock are as common and lethal as other acute life-threatening conditions that

emergency physicians routinely confront such as acute myocardial infarction, stroke, and trauma. Recent studies have led to a better understanding of the pathogenic mechanisms and the development of new or newly applied therapies.

Severe Sepsis and Septic Shock: Review of the Literature

Emergency departments (EDs) in many developed countries are experiencing increasing pressure due to rising numbers of patient presentations and emergency admissions. Reported increases range up to 7% annually. Together with limited inpatient bed capacity, this contributes to prolonged lengths of stay in the ED; disrupting timely access to urgent care, posing a threat to patient safety.
