Search Strategy (HSS) [11] to consider the variable strength parameter interaction. The emergence of Artificial Intelligent (AI) based strategies has shown good results in term of producing optimal test case size. Based on such alluring prospects, we study Bees Algorithm as the basic for t-way test generation.

interaction, a step by step procedure that extends our t-way test generation strategy, called Test Suite Generator (TSG) is highlighted. Benchmarking results against most existing strategies that support variable-strength interaction demonstrate that TSG is able to give competitive results.

Variable-Strength Interaction for T-Way Test Generation

<p>Pairwise testing is a specification-based testing criterion, which requires that for each pair of input parameters of a system, every combination of valid values of these two parameters be covered by at least one test case.

test case generation process with a requirement prioritization method to resolve the following research problems: unable to identify suitable test cases with limited resources, lack of an ability to identify critical domain requirements in the test case generation process and ignore a number of generated test cases.

question-generation strategy can enhance learnersâ€™ meta-cognition to promote reading comprehension (Andre & Anderson, 1978, 1979; Haller et al., 1988; Wong & Jones, 1982). The third essential factor in question-generation strategy is Schema Processing.

Correspondence to: Jalal Mohammed Hachim Altmemi, Department of Computer Engineering, Iraq University Collage, Iraq. Interaction (t-way) testing is a methodology to generate a test suite for detecting interaction faults. The generation of a t-way test suite is a n NP hard problem (Zamli, et al ...

An Analogous t-Way Test Generation Strategy for Software

Pairwise testing (or 2-way testing) is a specification-based testing criterion, which requires that for each pair of input parameters of a system, every combination of valid values of these two parameters be covered by at least one test case.
