The Illinois Loop website is no longer updated on a regular basis. However, since many of the links and articles have content and perspectives that are just as valid today, we are keeping this website online for parents, teachers and others researching school issues and solutions.

### **Illinois Loop: Introduction**

The Chicago River is a system of rivers and canals with a combined length of 156 miles (251 km) that runs through the city of Chicago, including its center (the Chicago Loop). Though not especially long, the river is notable because it is one of the reasons for Chicago's geographic importance: the related Chicago Portage is a link between the Great Lakes and the Mississippi River Basin, and ...

According to the National Highway Traffic Safety Administration, there are over 6 million car crashes each year in the United States. Many of these are not very serious, while others cause extensive damage and even death. The cause of an accident can vary from distracted driving to poor road conditions, but the results of the crash can be explained using physics.
