A bestiary, or bestiarium vocabulum, is a compendium of beasts. Originating in the ancient world, bestiaries were made popular in the Middle Ages in illustrated volumes that described various animals and even rocks. The natural history and illustration of each beast was usually accompanied by a moral lesson. This reflected the belief that the world itself was the Word of God, and that every ...

The Scar is a definitive example of The New Weird, an expansive, revolutionary offshoot of traditional fantasy. Written in muscular, often poetic language and informed throughout by the author's intelligence and restless imagination, it remains a unique accomplishment, a book no one else could have written.

modern color models. The first six pages have examined the fundamental aspects of color perception â€” the trichromatic mechanism, the three colormaking attributes that describe color sensations, the geometry of color (including the hue circle, opponent functions and response compression), the many basic forms of color, and the complex effects of context, contrast & adaptation, and finally the ...
