## **international capital flows and pdf**

International economics is concerned with the effects upon economic activity from international differences in productive resources and consumer preferences and the international institutions that affect them. It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and migration.

## **International economics - Wikipedia**

Illicit financial flows, in economics, are a form of illegal capital flight that occurs when money is illegally earned, transferred, or spent. This money is intended to disappear from any record in the country of origin, and earnings on the stock of illicit financial flows outside a country generally do not return to the country of origin.
