Key. If the words given as examples for two different symbols sound the same to you (for example, if you
pronounce cot and caught the same, or do and dew, or marry and merry), you can pronounce those symbols
the same in explanations of all words. The footnotes explain some of these mergers.

Vitamin K is a group of structurally similar, fat-soluble vitamins that the human body requires for complete
synthesis of certain proteins that are prerequisites for blood coagulation (K from Koagulation, German for
"coagulation") and which the body also needs for controlling binding of calcium in bones and other tissues.
The vitamin K-related modification of the proteins allows them to bind ...

Highlights We define the concepts relevant for yield gap analysis. We review different methods for local and global yield gap analyses. Global methods are coarse and local studies use different methods. A number of methods is compared using data sets from three regions. Components of a protocol for global yield gap analysis with local relevance are proposed.
