Single-material kirigami. Different from mesoscopic kirigami that usually uses multiple materials, macroscopic kirigami can be simply realized by cutting flat single material and transforming it into desired shapes manually, as the paper-cut of an expandable dome illustrated in Fig. 1A. Single-material kirigami in microscopic scales, which could significantly simplify the multistep processing ...

Quilting is the process of sewing two or more layers of fabric together to make a thicker padded material, usually to create a quilt or quilted garment. Typically, quilting is done with three layers: the top fabric or quilt top, batting or insulating material and backing material, but many different styles are adopted. The process of quilting uses a needle and thread to join two or more layers ...
