The World Development Report 2018 (WDR 2018)â€™LEARNING to Realize Educationâ€™s Promiseâ€™ is the first ever devoted entirely to education. And the timing is excellent: education has long been critical to human welfare, but it is even more so in a time of rapid economic and social change.

World Development Report 2018: Learning to Realize

Unschooling is an educational method and philosophy that advocates learner-chosen activities as a primary means for learning. Unschooling students learn through their natural life experiences including play, household responsibilities, personal interests and curiosity, internships and work experience, travel, books, elective classes, family, mentors, and social interaction.

The practice of homeschooling has essentially been around since the dawn of time. Parents and guardians have always took it upon themselves to teach the younger generation the knowledge that they have received through their many years of experience.

Home Schooling Should Be Banned - DebateWise

informal education in schools and colleges In recent years there has been a significant growth in the numbers of informal educators working in formal educational settings like schools and colleges.
