Agriculture is the cultivation of land and breeding of animals and plants to provide food, fiber, medicinal plants and other products to sustain and enhance life. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The study of agriculture is known as agricultural ...

Cellulose macro- and nanofibers have gained increasing attention due to the high strength and stiffness, biodegradability and renewability, and their production and application in development of composites. Application of cellulose nanofibers for the development of composites is a relatively new research area. Cellulose macro- and nanofibers can be used as reinforcement in composite materials ...

Cellulose-Based Bio- and Nanocomposites: A Review

For thousands of years before 1788, the Indigenous clans living on the Cumberland Plain "now the site of metropolitan Sydney" adapted well to the availability, or scarcity, of resources within their various domains. Along the coast, the people of the harbour and the beaches "the Gadigal of the Eora and the

Tharawal " lived off the local animals, plants and marine life.
