Medical concepts and language can be complex. People need easily understandable health information regardless of age, background or reading level.

How to Write Easy-to-Read Health Materials: MedlinePlus

Write amplification (WA) is an undesirable phenomenon associated with flash memory and solid-state drives (SSDs) where the actual amount of information physically written to the storage media is a multiple of the logical amount intended to be written.. Because flash memory must be erased before it can be rewritten, with much coarser granularity of the erase operation when compared to the write ...

The Inquiry Chart (I-chart) is a strategy that enables students to gather information about a topic from several sources. Teachers design the I-chart around several questions about a topic. Students read or listen to several sources on the topic and record answers to the posed questions within the I-chart. Students generate a summary in the final row.
